Network Security Principles, Security Best Practices, Foundational Security Knowledge

WORK EXPERIENCE

Coach Profuturo

2022 - Present

IRC (Profuturo Digital Education)

- Train teachers and students on the effective use of digital materials and educational technology platforms.
- Facilitate the integration of technology into standard curriculum to enhance learning outcomes.
- Provide technical support and guidance to ensure smooth operation of educational software tools.
- Demonstrated strong communication and leadership skills in guiding users through technical adaptations.

KEY PROJECTS

E-commerce Website

Developed a full-featured online shopping platform using Django for the backend and React for the frontend. Implemented secure database integration for product management and user data.

Social Media Platform

Created an interactive social networking application featuring real-time updates. Utilized Django to handle complex data relationships and React for a dynamic user interface.

School Management Fees System

Designed and built a comprehensive system for tracking and managing school fees. Integrated payment processing logic using Django and created an intuitive dashboard with React.
